

# Tips to Keep Your Pet Safe This Halloween

-  Keep Halloween treats out of reach from your pets
-  Ensure your pet is identifiable if they escape (e.g. collar with ID tag for your dog and up to date details on your pets microchip)
-  Walk your dog earlier and in daylight to avoid bumping into people in the dark wearing scary costumes
-  Keep the Halloween decorations (especially open flames) away from your pets reach/cage
-  Provide your pet with a hideaway area safe from visitors and noise
-  Consider bringing in your pets who live outside indoors on Halloween night to protect them from too much noise
