

ENRICHMENT

Rabbits and small animals

1

STEP 1

Fold some of cardboard tubes in half lengthways and squish them down slightly.

2

STEP 2

Keep one that isn't squished and place the folded tubes inside. You could also use a longer tube and put even more squished tubes inside.

3

STEP 3

Place some treats into the tube. Some can be in harder to access spots where the tubes are tighter and others can be in places where they will fall out easily if the tube is rolled/thrown.
