

# ENRICHMENT

## Rabbits and small animals

1

### STEP 1

Cut a 1 cm wide section off the end of a cardboard tube. You will need at least 3 of these but can add more to increase difficulty.

2

### STEP 2

Slot the circles inside one another to create a ball shape.

3

### STEP 3

Place some food pellets or veg inside, the animal will then roll the ball around or pull it apart to access the treats.
