DOGS DIE in hot cars

Be a responsible pet owner. Don't risk it, not even for a few minutes.

The temperature in cars can rise rapidly. Animals can suffer severe side effects if they can't cool themselves down quickly. Heatstroke can be fatal.

JSPCA

If your pet is suffering from heatstroke, cool your pet down quickly and call your vet immediately. If you see a distressed dog trapped in a car, call 999. Visit jspca.org.je to learn more about keeping your pet safe in the heat.
