CAN YOU SPOT the symptoms of heatstroke?

It's vital we know how to keep our pets cool, spot the signs of heatstroke and know what to do in an emergency.

Look out for:

- Excessive panting
- Lethargy and weakness
- Increased heart rate
- Bleeding or inflamed gums
- Bright red tongue
- Vomiting and diarrhea
- Confusion and dizziness
- Seizures
- Collapsing
- Unconsciousness

JSPCA

If your pet is suffering from heatstroke, cool your pet down quickly and call your vet immediately. If you see a distressed dog trapped in a car, call 999. Visit jspca.org.je to learn more about keeping your pet safe in the heat.
